

# GREEN EGYPT OVERHEAD IRRIGATION SYSTEM FOR THE GREENHOUSES OF ELSHOROUK FARMS

## WHERE:

The **Elshorouk Farms** company, run by Safwat Habib, operates in several fields of the agricultural sector offering ornamental plants and fertilisers needed for their care. The sprinkler irrigation system maintains a controlled level of moisture in the greenhouses, and so a pressurisation system is required for the spraying of cold water mixed with fertilisers. In collaboration with ECAI Egyptian Co. For Agencies and Industry s.a.e.

## WHEN:

October 2003

## THE REQUEST: PRESSURE BOOSTING SYSTEM FOR IRRIGATION

The centrifugal pump installed pressurises the lines of nozzles covering the entire area of cultivation. It was mounted on the delivery line.
