

# RESIDENTIAL COMPLEX IN FOX HILLS, LUSAIL, QATAR

## WHERE:

**Lusail** is located 15 km from Doha, the capital of Qatar.

The town, north of Al Qutaifiya Bay, is a planned city on 35 km<sup>2</sup> which will eventually have a population of between 200,000 and 250,000 inhabitants. The city has a tramway, two marinas, residential areas, seaside resorts on the islands off the coast, shopping malls and other luxury businesses.

## WHEN:

October 2016

## THE REQUEST:

The multifunctional complex, in an area covering approximately 40,370 square metres, consists of three buildings with 170 housing units of various sizes, a multifunctional hall, a gym, a children's play area and other facilities. The project envisages the implementation of water systems for the residential buildings with the installation of the following products:

- multistage vertical centrifugal pumps with joint (NKV) and impellers in AISI 304 steel;
- submersible pumps for lifting waste water (FEKA VS), entirely in steel;
- three-speed circulators (A 110/180M).

• 1 NKV 15/2 T, 1 NKV 20/2 T, 1 KVC 30/80T

• 3 FEKA VS 750 TNA

• 8 A 110/180M
