

FIRE-FIGHTING AND BOOSTER SET FOR THE MPGK COMPANY IN KATOWICE, POLAND

WHERE:

Katowice is a major city in the historical region of Silesia, in southern Poland, on the Kłodnica and Rawa rivers, not far from Krakow.

Katowice is now the centre of science and education in Upper Silesia, and has a lively cultural scene.

WHEN:

July 2016

THE REQUEST:

MPGK (Municipal Public Utilities Ltd) is a company that provides biological treatments and management services of trash and waste; its goal is to improve the quality of life of residents by investing in projects related to the protection of the environment.

This company has further demonstrated its commitment to the use of innovative, environmentally friendly products. To protect the stocks of raw materials it installed, at its plant, a 37 kW (1KDN 80-200/200) DAB electric fire-fighting set with a vertical multistage three-phase centrifugal jockey pump (KVCX) that ensures the utmost reliability of the system even in the case of small leaks in the system.

- 1KDN 80-200/200 37kW EN12845

- 1KVCX 65-80 IE3
