

9 e.sybox FOR THE "TATYANA" RESIDENTIAL COMPLEX IN AKTAU (KAZAKHSTAN)

WHERE:

Aqtau, or Aktau, is a town in Kazakhstan located on the Mangyshlak peninsula and is the capital of the Mangghystau region; it has a seaport on the Caspian Sea.

In Kazakh, the name means: the white mountain by the cliffs overlooking the sea of Aqtau.

WHEN:

May 2016

THE REQUEST:

For the Tatyana Residential Complex, the water supply system was pressurised by installing three stations each consisting of three e.sybox devices, one e.sydock and one e.sytwin.

Despite the scale of the project, installation was quick and easy as the e.sybox, e.sydock and e.sytwin already contain the components and accessories needed to mount them.

- 9 E.SYBOX

- 3 E.SYTWIN

- 3 E.SYDOCK
