

TWO FIRE-FIGHTING SETS FOR BRICOMAN IN FERRARA, ITALY

WHERE:

The city of **Ferrara** stands on the banks of the Po di Volano, in the lower plain of Emilia. Thanks to the ancient family named "Este" who owned the city, and thanks to its ambitious urban design project, Ferrara was transformed from a medieval citadel into a real masterpiece of the Renaissance. The great cultural plans of the Este family began in 1391 with the foundation of the University which grew to such an extent as to seal the reputation of the Este Court in the highest circles throughout Europe. Even today, the spirit of the Renaissance of Este continue to shine in Ferrara with a fascinating fusion of old and new.

WHEN:

July 2012

INSTALLER:

Margelli srl

CUSTOMER:

Bricoman Italia S.r.L.

THE REQUEST:

Bricoman opened its first store in France in 1999 and he has now extended in four countries (France, Spain, Italy and Poland) with more than 70 outlets.

BRICOMAN arrived in Italy in October 2008. The group is specialised in the wholesale and retail trade of professional technical products for the construction and renovation of houses and buildings.

It commissioned DAB to install two 1KDN fire-fighting sets with an electric pump and a motor pump for its premises in Ferrara.

The two 1KDN 100-250/240 EN 12845 90 kW centrifugal pumps can provide a maximum flow rate of 285 cubic metres/h with a head up to 35 metres.

- 1KDN 100-250/240 MD EN 12845
