THE REQUEST

Pars Aqua Village is a four-seasons water park located in Garmdareh district of Karaj city. This is the largest covered water park in the Middle East and it is equipped with the latest water technology. It was opened on march/2011 in an area of over 14,000 square meters, the complex is capable to satisfy up to 2000 people.

It was possible thanks to the cooperation, knowledge-based, of Spico.Ltd company, DAB Pumps exclusive partner in Iran, as a supplier of goods and services and Arian Estakhr Co, as executive, designer and constructor of marine structures, mechanical and water proof electrical installations, intelligent control systems, fountains, air washer systems, dehumidifier systems, pools, Jacuzzi and turkish bath.

The latest water technology and DAB products made possible to build an aqua park which include 9 water slides, wave lake, sauna and Jacuzzi, artificial rivers, fish spa, snow chambers, VIP halls, GYM and fitness center, massage, 3D cinema, restaurants, cafes and shopping centers.

It is worth mentioning because thanks to DAB Pumps suitable products, like EURO PRO & EURO SWIM, the water used in this set has a composition close to mineral water which is deliberately clarified with special arrangements.

EURO PRO

EURO SWIM
